About Me

Computer Science undergraduate passionate about full-stack software development and cloud technologies. Experienced in developing web applications using Java, Spring Boot, MySQL, and applying OOP and SOLID principles for clean, maintainable code. Familiar with Azure, Docker, GitHub, and collaborative project management using Jira and Agile methodologies. Eager to contribute to innovative projects, learn new technologies, and grow as a professional in a dynamic software engineering environment.

EDUCATION

B.Sc.(Hons). in Computer Science

Sri Lankan Institute of Information Technology

2023-present

SKILLS

Technical Skills

- Java
- Spring boot
- Docker
- Azure
- CI/CD pipeline
- Jira
- MySQL
- GitHub
- Agile methodology
- OOP concepts
- SOLID principles

Soft Skills

- Communication
- Adaptive continuous learning
- Leadership

PROJECTS

Palm Beach Resort – Hotel Management System

- **Description:** Its an full-stack web application design using java spring and Dockerized the application and deployed it on Azure for scalable cloud hosting. Collaborated in Agile sprints using Jira, managing tasks and milestones, with version control via GitHub.

- **Tech Stack:** React, Vite, Java Spring Boot, MySQL, Docker, Azure, GitHub, Jira

Verdant Plant Shop – Full Stack Web Application

- Developed Verdant Plant Shop, a full-stack plant e-commerce web application using Spring Boot, React (Vite), and MySQL, featuring secure authentication, plant management, cart functionality, and order tracking. Implemented a nature-inspired Verdant UI, admin dashboard for plant CRUD operations.

- Tech Stack: Spring Boot, React (Vite), MySQL, REST APIs,Docker,Azuer web app, Azuer SQL database,GitHub
