PROFILE

Motivated Computer Science undergraduate at SLIIT with hands-on experience in full-stack web development using React and Java Spring Boot, complemented by practical knowledge of test automation with Playwright and Selenium. Demonstrates strong problem-solving skills with the ability to contribute across the full development lifecycle — from designing and building web applications to testing and troubleshooting. A collaborative team player with excellent communication skills, eager to grow within a dynamic and innovative technology team.

EDUCATION

B.Sc (Hons) in Computer Science October 2023 – Present
Sri Lanka Institute of Information Technology (SLIIT) Colombo, Sri Lanka

SKILLS

Frontend: React.js, Vite, HTML, CSS, JavaScript
Backend: Java, Java Spring Boot, Spring Security, REST APIs
Test Automation: Playwright, Selenium WebDriver, JMeter, k6, API Testing with Postman
Other Languages: C#, Python, C
Databases: MySQL, SQL Server (Azure SQL), MongoDB
DevOps & Tools: Docker, GitHub Actions, Microsoft Azure, Git, GitHub, Jira, Maven, VS Code
Concepts: OOP, SOLID Principles, RESTful APIs, Agile/Scrum, CI/CD, Software Testing
Soft Skills: Communication, Teamwork, Problem Solving, Analytical Thinking, Continuous Learning

PROJECTS

LifeMentor – AI-Based Wellbeing Platform (Individual) Feb 2026
Independently designed and developed a full-stack web application using Java Spring Boot and React + Vite, featuring an AI-powered chatbot, goal tracking, daily check-ins, and scheduled email reminders. Implemented JWT authentication, BCrypt password hashing, account lockout, and a secure token-based password reset flow. Performed functional and regression testing across all features to ensure reliability and correctness.
Tech: Java Spring Boot, React + Vite, MySQL, Gemini API, Playwright, Postman, GitHub Pages.

Palm Beach Resort – Hotel Management System (Group) Aug 2025
Collaborated in an Agile/Scrum team to build a full-stack hotel management system with room booking, food ordering, and an admin dashboard. Contributed to both frontend React components and Java Spring Boot backend APIs, and developed Selenium-based automated tests to validate critical user flows. Participated in code reviews and tracked tasks via Jira.
Tech: Java Spring Boot, React + Vite, MySQL, Selenium, Docker, Microsoft Azure, Jira.

Pathfinder – Smart Internship Management System (Group) 2026 – Present
Contributed to a cloud-based internship platform with separate dashboards for students, companies, and admins. Assisted in developing REST APIs using ASP.NET Core, building React frontend components, and integrating Playwright end-to-end tests into a GitHub Actions CI/CD pipeline that automatically deploys to Microsoft Azure on every merge.
Tech: .NET 8, ASP.NET Core, React + Vite, Azure SQL, Playwright, Docker, GitHub Actions, Azure.

RELEVANT COURSEWORK

Software Engineering	OOP Concepts	Database Management	Data Structures
Algorithms Analysis	Internet Technology	Cloud Computing	Computer Networks

CERTIFICATIONS & LEARNING

- Actively expanding knowledge in advanced React patterns and Spring Boot microservices
- Hands-on experience with test automation frameworks: Playwright, Selenium, JMeter, k6
